Dr Mathukumalli Vidyasagar is one of the significant scientific brains that India has produced. With astounding academic brilliance in the field of Electrical Engineering that fetched him B.S., M.S. and Ph.D from the University of Wisconsin, Madison, he distinguished himself as Professor, Director, Executive Vice President and Distinguished Professor in institutions of great repute in India and abroad. He is actively involved in research in the area of Reinforcement Learning, with emphasis on using stochastic approximation theory. More broadly, he is interested in machine learning, systems and control theory, and their applications. Vidyasagar has received a number of awards in recognition of his research contributions, including Fellowship in The Royal Society, the world's oldest scientific academy in continuous existence, the IEEE Control Systems (Technical Field) Award, the Rufus Oldenburger Medal of ASME, the John R. Ragazzini Education Award from AACC, and others. He is the author of thirteen books and more than 160 papers in peer-reviewed journals.

Dr. M. Vidyasagar FRS

Sivananda Eminent
